OBJECTIVE Research Associate in the pharmaceutical industry

EDUCATION **B.S. in Biology** **2008**
California State University, San Bernardino

SKILLS SUMMARY

- *Extensive experience in pharmaceutical research.*
- *Extensive experience in chemical analysis and method development.*
- *Strong analytical skills, meticulous and detail oriented.*
- *Proficient in the use of high-pressure liquid chromatographs, spectrometers, pH meters, analytical balances and centrifuges.*
- *Gas chromatography.*

WORK EXPERIENCE

Senior Lab Technician **2006 - present**
Pharmaceuticals, Inc. Highland, CA

- Develop new methods suitable for use in drug metabolism studies.
- Condense and simplify inventory of radioactive drugs in-house.
- Conduct experiments in areas of dosing radioactive drugs to lower animals and collection of samples.

Research Assistant **2005-2007**
California State University, San Bernardino

- Conducted experiments to generate data from absorption, distribution and excretion studies in lower animals involving radioactive drugs.
- Disbursed all radioactive materials.
- Created new materials based on previous research by biology professor.

COMPUTER SKILLS Word, Excel, SPSS, Power Point.

LANGUAGE SKILLS Fluent in German.
